

FENDERS

AND ACCESSORIES

The Aristocraft Fenders have well and truly found their way into the Australian market place.

They provide excellent support when needed but more importantly they pack away flat, which when using traditional fenders can be quite the pain.

The Aristocraft fender is very versatile; they have been used as on board fenders, used to line pens and even sailing markers and buoys.

The most impressive part about the Aristocraft Fenders is the fact you can repair them even while you're on the water.

Just keep an Aristocraft repair kit on hand and should the worst happen you can be back in action in a matter of hours.

The Aristocraft Fenders come in many sizes from the AF480 right through to the AF402000 at 2 meters long x 400mm wide great for super yachts.
