

# SEAROVER

Aristocraft Leisure is proud to release its new line up for 2012-13.

This year see's a major improvement over previous versions with substantial upgrades for a similar investment.

Working together with the Aristocraft factory we have been able to provide boats with features only found on far more expensive brands.

We all know how tough the Australian climate is, so going that extra step is all important. While in its second year of production the SeaRover is fast becoming a very popular range.

This year we have introduced bow locker options in both the 2.9 and 3.2 meter boats. Bow lockers are handy for gear and anchor storage.

The newest member is 4.2 meters of 4mm plate alloy hull wrapped up in the finest French Orca Hypalon.

This truly universal open style boat allows allsorts of uses, from diving, ship to shore transportation, fishing or just an all day every day boat.

Many more upgrades have found their way in our line so please see specifications for more information.
